

## Environment and Sustainability

PM Group is an international project delivery company, providing architecture and engineering design, project management, construction management and consultancy services across a variety of sectors.

At PM Group our objective as professional service providers is to contribute to and align our business practices with the global objective of sustainability and we encourage all of our stakeholders to support this objective.

### PM Group is committed to:

- Having a company-wide structure to manage environmental and sustainability issues and appointing a senior executive responsible for this.
- Carrying out our business in full compliance with all applicable environmental regulations.
- Promoting and developing appropriate and sustainable design solutions incorporating whole-life cost analysis.
- Protecting the environment and preventing pollution from our business activities through appropriate controls, procedures and training.
- Continually improving our environmental and sustainability performance by continually reducing our environmental impact and our potential contribution to climate change.
- Implementing this policy through our Global Environmental Plan including the successful operation of the Environmental Management System (or local equivalent).
- Improving our engagement through partnerships, pro bono work and volunteer support on projects that positively impact the communities around us.

We are further committed to reviewing our Environmental and Sustainability practices regularly, taking into account current and future business needs and aligning with the UN Sustainability Development Goals.

*PM Group Environment and Sustainability Policy Doc no. 141.PL.01 is also available to all personnel on SCOPE.*
